

Andrew Garman

SUMMARY

Senior front-end developer specializing in accessible design systems and modern web components. I architect scalable solutions for complex digital properties, translating stakeholder requirements into technically sound implementations that prioritize accessibility and user experience. Over 10+ years I've evolved from graphic design and Flash animation to front-end architecture across multiple frameworks and CMS platforms, thriving at the intersection of design and engineering.

TECHNICAL SKILLS

Frameworks: React, Vue, Svelte, Lit, Web Components

Build Tools: Vite, Webpack, Gulp, Parcel

CMS: WordPress, Drupal, Sitecore

Design: Figma, Sketch, Invision, Storybook

Standards: WCAG AA, Atomic Design, Component-Driven Dev

AI Tooling: Cursor, Claude, Claude Code, ChatGPT

EXPERIENCE

Senior Developer

October 2022 – Present

Phase2 — Fort Wayne, IN (Remote)

Technical lead for complex front-end implementations, providing architectural guidance and mentorship while building accessible, component-driven design systems for healthcare and education clients.

- Architect and develop design systems using web components and Lit, configuring Vite build systems across multiple client projects
- Lead technical solutioning and troubleshooting, establishing implementation patterns and development standards
- Mentor junior developers through regular 1-on-1s focused on career development and technical growth
- Translate client requirements into technical specifications and user stories, bridging stakeholder needs with development execution
- Build accessible Drupal themes and integrations ensuring WCAG AA compliance
- Leverage AI tools to optimize development workflows and establish team coding standards

Front End Tech Lead

August 2021 – October 2022

GeekHive — Warwick, NY (Remote)

- Led teams building accessible, component-driven front ends across React, Vue, and Svelte
- Architected a multi-site design system for Drupal 9 with Storybook integration

- Built features on an existing React Native codebase using TypeScript, Redux, and Redux Toolkit
- Created epics, stories, and tasks from client requirements; configured build systems and living style guides

Senior Developer

February 2020 – August 2021

GeekHive — Warwick, NY (Remote)

- Translated designs from Figma, Sketch, and Invision into interactive prototypes and design systems
- Built complex scroll-triggered animations using ScrollMagic and GSAP
- Converted a Drupal 7 multisite to Drupal 8 with a shared base theme
- Created custom Sitecore SXA theme components

Developer

April 2016 – February 2020

GeekHive — Warwick, NY (Remote)

- Built responsive, modern CMS themes across Drupal, WordPress, and Sitecore
- Developed build systems for Sass/SCSS, JavaScript, and image optimization using Gulp, Webpack, and Parcel
- Created iOS-targeted websites and sales presentations for conference use

Front End Web Developer

September 2015 – March 2016

LYFT Digital, LLC — Fort Wayne, IN

- Developed responsive custom WordPress websites and e-commerce themes
- Created style guides and working mockups from provided designs

Front End Web Developer / Graphic Designer

June 2014 – September 2015

Enspire Software, Inc. — Fort Wayne, IN

- Implemented views and styles across Ruby on Rails, ASP.NET, and Angular 1.x projects
- Built and maintained responsive CMS sites in Drupal and WordPress
- Participated in agile, sprint-based development cycles

Marketing Graphic Designer

January 2013 – May 2014

Symplexity (Formerly ENS Group) — Fort Wayne, IN

- Created HTML emails, digital marketing campaigns, and print/digital sales materials
- Maintained company Drupal and WordPress sites and managed social media scheduling

Flash Animator / Web Design

October 2010 – December 2012

System Simulations — Poway, CA

- Produced e-learning modules for Infiniti USA, Infiniti Global, Suzuki North America, and Nissan North America
- Translated scripts with voice-over into interactive training tools meeting worldwide automotive brand standards

EDUCATION

Bachelor of Fine Arts, Computer Art and Design

Purdue University Fort Wayne — Fort Wayne, IN — 2000–2008
